

MIDDLE EAST
METAL CAN

Outside as Good as Inside

memc

to engineer solutions that shape the future

company overview

Middle East Metal Can (MEMC), a member of Trinity Holdings, is a pioneering container manufacturing company in the Arabian Gulf. Established in 2001, MEMC is equipped with state-of-the-art facilities and machineries to produce an array of tin containers of varying shapes and capacities. With vast experience and unflinching commitment to quality and customer orientation, MEMC has grown exponentially to become one of the largest manufacturers of metal cans in the region.

'Our goal is to produce high quality metal cans, using best of the breed technology, at a competitive price. With this in mind, we offer innovative packaging solutions, and build close partnerships and long lasting relationships with our customers.'

quality focus

why metal cans?

- High shelf life
- Safe and healthy
- Cost effective
- Economical through the supply chain
- Prevent waste through recycling
- Produced from viable sources of raw material
- Excellent printability

MEMC's reputation is based on a foundation of quality, unsurpassed manufacturing expertise and ethical standards. The company maintains a quality management system as per ISO 9001: 2015 standards. In addition, all containers manufactured are certified by the United Nations Standard. Careful analysis of customer needs and strict adherence to quality and safety procedures have enabled MEMC to meet and exceed customer expectations.

plant & machinery

We are capable of producing versatile containers of varying capacity using cutting-edge technology and equipment. The fully integrated and automated manufacturing facility, skilled workforce and electronic monitoring at every stage of production ensure product consistency and quality over the long-run. To complement our strength, we have high-speed printing and coating machines, an efficient tool room, a machine shop and a stockyard.

- Printing machine (Crabtree coater with LTG oven)
- Double colour printing machine
- Coating machine (Crabtree coater with LTG oven)
- Automatic cutting machines
- Semi-automatic cutting machines
- Automatic press lines
- Press machines
- Fully automatic lines
- Semi-automatic lines
- Other allied portable and handheld machines

cylindrical cans

Fabricated with electrolyte tin coated metal sheets, cylindrical cans are used especially for preserving oil, paint, chemical and food. The container parts include body, ring, lid, bottom, ear lug and handle with capacities ranging from 250 ml to 5 liters.

Dimensions

Capacity	Standard Size	Diameter (mm)	Height (mm)
237 ml	211	68	85
250 ml	211	68	97
250 ml	301	73	71
250 ml	307	85	75

3.5L	700	176	241

rectangular cans

Used for storing lubricants, thinner and chemicals, the capacity of rectangular cans vary from 1.25 to 5 liters. These are secured by both the ends where in the top is fitted with either a tin plate bridge handle, metal screw neck, plastic/aluminium screw closure or a galvanized wire handle.

Dimensions

Capacity	Standard Size	Diameter (mm)	Height (mm)
1 L	US	64 x 116	170
3L	UK	110 x 178	171
2L	UK	110 x 178	108
4L	UK	110 x 178	253
5L	UK	110 x 178	286
6L	UK	110 x 178	319
1 US Gallon	US	105 x 168	243
5L	US	105 x 168	295
6L	US	105 x 168	329

pails

Cylindrical and conical in shape, pails are used for storing chemical, oil, paint and thinner. The container parts include bottom, body, lug lid, ear lug, spout, metal screw cap and handle. We manufacture pails as per the UAE and KSA standards with printed, plain and pigment coated components.

Dimensions

Capacity	Standard	Bottom Diameter (mm)	Top Diameter (mm)	Height (mm)
4L	CONIPAIL	188.5	205.5	160
5L	CONIPAIL	188.5	205.5	202

two-pack cans

Two-pack cans are cylindrical shaped containers with capacities ranging from 3 to 5 liters. They are integrated cans with separate sections for storing the sealant and hardener in construction chemicals. The container parts include body, lid, slip lid and bottom.

Dimensions

Capacity	Standard	Diameter (mm)	Height (mm)
3L	UK	110 x 178	171
2L	UK	110 x 178	108
4L	UK	110 x 178	253
5L	UK	110 x 178	286
6L	UK	110 x 178	319
1 US Gallon	US	105 x 168	243
5L	US	105 x 168	295
6L	US	105 x 168	329

food cans

can applications

- Cylindrical/round cans for packing dry/liquid processed food (milk powder, dairy products, ghee, tomato paste and nuts)
- Rectangular cans for packing oil products
- Flattened body and components

► Dimensions

Capacity	Diameter (mm)	Height (mm)
2.5 kg	189	215.5
1.8 kg	153	230
1 kg	105	151.5
900 grm	127	195
500 grm	105	87
400 grm	99	137
250 grm	99	101
200 grm	83	61
100 grm	73	102.6

MEMC offers premium quality and sustainable metal packaging solutions for the paint, food and chemical industry. Specific applications include tin plate packaging for paint and coatings, preserving food for a longer period and storing of hazardous chemicals and lubricants.

► paint cans

Capacity	1 to 25 Liters		
Shape	Round	Rectangle	Pail
Standard Size	307, 401, 404, 610, 700	US & UK	UAE & KSA

► lubricant cans

Capacity	1 to 5 Liters	
Shape	Round	Rectangle
Standard Size	307, 401, 404, 610, 700	US & UK

► construction chemical cans

Capacity	1 to 25 Liters		
Shape	Round	Rectangle	Pail
Standard Size	307, 401, 404, 610, 700	US & UK	UAE & KSA

► food cans

Capacity	100 grm to 2.5 kg	
Shape	Round	
Standard Size	73, 83, 99, 105, 127, 153, 189	

can components

future orientation

We custom-make can components as per specific customer requirements. A wide variety of container closures, such as single tight (ST), double tight (DT), triple tight (3T), slip lid, easy open-end, pilfer proof (PP) cap and pull-out spout are manufactured to suit specific applications.

MEMC currently produces metal cans of capacities ranging from 250 ml to 5 liters (round and rectangular) and 10 to 25 liters (conical pail). Looking forward, the company aims to ramp-up its capacity to produce a wider range of products, including OTS and AEROSOL cans for the food industry, and meet the challenges that come out of the dynamic packaging industry.
